

Kop Magic Comes To Sports School

For many of these youngsters, it was an opportunity of a lifetime to experience the kind of training that players at Liverpool Football Club undergo. What's more, Liverpool's goal-scoring legend Ian Rush and former Reds captain Phil Thompson were on hand to share a few tips with 19 Sports School footballers, and Football Academy Senior General Manager S Varatha Rajan and Coach Abdullah Noor.

Ian Rush and Phil Thompson were suitably impressed with SSP's student-athletes, in particular, Muhammad Muhaimin Suhaimi from Secondary 4B; Ian Rush singled him out as one who has "the striker's instincts". High praise indeed from a man who is Liverpool's club record goalscorer with 346 goals in 660 appearances.

The football clinic on 17 July 2011 was organised by Liverpool FC's sponsor, Standard Chartered Bank, in collaboration with sport apparel giant, adidas, which is also a sponsor of SSP's Football and Track and Field academies.

2011 Nike Manchester United Premier Cup

Singapore Sports School sent two teams to participate in the 2011 Nike MUPC. Team "A" featured the U15 players and the "B" team, players from the U14 squad. The tournament went on for three months and both teams performed very well by reaching the finals.

In the Final, the "A" team went on to become champions and earned the right to represent Singapore in the regional finals in Thailand.

The team that won the local MUPC Nike Premier Cup could not represent Singapore in the regional competition in Thailand. This was due to their involvement in the Lion City Cup.

As such, most boys who were in the U14 team (which came in second in the local MUPC competition) and a few boys in the "A" team, who were not selected for the Lion City Cup, were chosen to represent Singapore. They qualified for the final and went down to Thailand to finish second. This was indeed a big achievement considering that most boys were a year younger.
