## A Different Kind Of Classroom

*Learning Journeys*

Loh See Ping

Head of Year, Secondary 1

Singapore Sports School student-athletes saw their classrooms come alive when they went on their Learning Journeys.

Launched by the Ministry of Education in 1998, these Learning Journeys aim to inculcate in Singapore students a sense of pride in our nation's achievements, nurture a sense of belonging to Singapore as well as understand the challenges and opportunities the country faces.

Some of the key national institutions our student-athletes visited on 29 August included Kranji War Cemetery, National Museum as well as the Old Parliament House.

On top of helping them recognise the factors underpinning Singapore's success and the constraints faced by our nation, these visits also seek to enlighten pupils on the role and importance of these institutions in Singapore's development.

<b>Level</b>	<b>Theme</b>	<b>Learning Journey Site</b>	<b>Venue</b>
