

When Sport Champions Champion For Others

Values In Action

Singapore Sports School student-athletes are expected to be Sport Champions, Champions for Sports as well as Champions for Others as they seek to give back to society and help the less-fortunate. Such activities take place all-year round and last week, the Football and Track and Field Academies carried out some meaningful commitments.

Climb For Rainbows

Colin Ng

Executive, Strategic Communications

Climbing stairs is an activity that we do and not think much about, pretty much like brushing teeth and washing face. But there are children with chronic medical conditions who are unable to carry out these daily deeds.

It was therefore heartening to see 54 student-athletes from the Track and Field Academy participating in the "Climb for Rainbows" event at Suntec City on 8 October 2016 to raise funds and awareness for Club Rainbow (Singapore).

Greening Green

Gail Chia

Executive, Strategic Communications

More tree saplings were planted on 12 October 2016 to further green the Woodlands Park Connector behind the Singapore Sports School campus.

Student-athletes from the Football Academy care for the environment by carrying out regular maintenance of trees and picking litter at the Park Connector. This partnership with National Parks Board started in 2015.
